

PRÊT À RELEVER  
LE DÉFI ?

# Create and / or follow a Mascot

## Difficulty

Easy

## Age of students

5 - 12 years old

## Duration

1 school year

## Goals

- Discover landscapes and populations of the world
- Work on geography
- Awake curiosity
- Interact with travellers

## Supplies needed

- Minimum required is a smartphone to follow mascot progress

## Description

We suggest you to follow your class mascot or another mascot during the whole school year (or a large part of it).

This activity will fascinate your students and make them travel remotely. It is a great way to work on different topics with practical activities while having fun! 2 options are available to you :

- ➔ You create a mascot and then contact us so that we get you in touch with one or more Ambass'Actors of United Schools (committed travelers) leaving soon. They will take care of your mascot and travel with it and will also send you photos or post them on their blog.
- ➔ You follow a mascot that has already been chosen by travellers (we can help you find the travellers and get in touch with them). Then, the process remains the same as the first option. It is faster and easier to set up but the relationship with travellers will be a bit less personalised.

From time to time, share the best photos on the platform!

Contact us to launch the activity!
