

READY FOR THE CHALLENGE ?

United Schools

Sensory activities

Difficulty

Easy

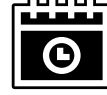

Age of students

5 - 12 years old

Duration

1 month

Goals

- Become aware of the environment around us
- Awaken the senses
- Arouse the curiosity
- Share your feelings with the other students and the community

Supplies needed

- Get simple material according to drawn cards
The minimum required is a smartphone to capture outcome and post it on the platform.

Description

This activity takes the form of a card game. It also can be played at home, alone and with some material. There is no restrictions for weather conditions.

The aim is to be connected to the environment in which we find ourselves, whether it is urban, or wilder, and all of this through our five senses.

This tool is a shaping of experiences designed by authors like Michel Acton Smith, or some animators, actors of nature education such as Louis Espinassous, Hervé Brugnot, student eco-interpreters or by the British organization National Trust "50 things to do before you're 12".

Download the game [HERE](#) and start setting it up with your students! Share photos, videos and "feedback cards" provided on the platform!
